

SPECIALTY WIRE PRODUCTS

ASTM A121, ASTM F1665, ASTM A824, ASTM F1664 SPECIFICATIONS

BARBED WIRE

Available in 3 coating types; Aluminized, Galvanized, and Fused Bonded PVC Coated. The 2-strand, 4-point barbed wire can be supplied with a 3", 4", or 5" barbed spacing.

TENSION WIRE

Available in 3 coating types; Aluminized, Galvanized, and Fused Bonded PVC Coated. Order in 9-gauge, 7-gauge, or 6-gauge core wire.

Barbed Wire - 2-Strand 12-1/2-gauge wire with 14-gauge, 4-point barbs available in 3" barb spacing high security and the standard 5" spacing. 4" spacing is special order.

- **Aluminized:** 2-Strands of aluminum coated steel wire, 12-1/2 gauge, for outstanding protection and durability. The 12-1/2 gauge wire has 0.30 oz/sq.ft of aluminum per ASTM A121. The 14-gauge, 4-point aluminum barbs can be spaced 5" or 3" apart. Roll lengths are 1320' for 5" barb space and 1000' for 3" barb spacing. Domestically manufactured in the USA with certifications.
- **Galvanized Class 3:** 2-Strands of zinc coated steel wire, 12-1/2 gauge, for superior protection and durability. The 12-1/2 gauge wire has 0.80 oz/sq.ft of zinc per ASTM A121. The 14-gauge, 4-point galvanized barbs can be spaced 5" or 3" apart. Roll lengths are 1320' for 5" barb space and 1000' for 3" barb spacing. Domestically manufactured in the USA with certifications.
- **Galvanized Class 1:** 2-Strands of zinc coated steel wire, 12-1/2 gauge, economy barbed wire. The 12-1/2 gauge wire has 0.28 oz/sq.ft of zinc per ASTM A121. The 14-gauge, 4-point galvanized barbs 5" apart. Roll lengths are 1320' for 5" barb space.
- **Vinyl-Coated:** 2-Strands of thermally fused & bonded PVC Vinyl over a galvanized 12-1/2 gauge steel wire per ASTM F1665. The 14-gauge, 4-point galvanized barbs can be spaced 5" or 3" apart. Roll lengths are 1320' for 5" barb space and 1000' for 3" barb spacing. Domestically manufactured in the USA with certifications. Available in Black, Green, or Brown.

Tension Wire Crimped - Used to help secure and strengthen the bottom and top of the chain link fence.

- **Aluminized:** Aluminum coated steel, 7 gauge wire per ASTM F1664 has 0.40 oz/sq.ft of aluminum per ASTM A817. 1000' rolls.
- **Galvanized Class 3:** Zinc coated steel, 7 gauge wire per ASTM A824 has 0.90 oz/sq.ft of zinc per ASTM A817. 1000' rolls.
- **Vinyl-Coated:** Heavy-mil PVC coated galvanized steel 7 gauge core per ASTM F1664. Finish of wire is 6 gauge. 1000' rolls.

Other wire sizes and roll lengths are available. Please contact us for available sizes. Quantity limits may apply.
